

CRYSTAL CLEAR POLYSTYRENE CUPS

Crystal clear polystyrene cups provide a package with clear, glass-like visibility where point of sale clarity becomes important. Breakage and returns can be minimal when distribution and display are well controlled. Highland Plastics manufactures a complete line of injection molded, reusable plastic containers with snap-on-lids. Designed for compatibility with high speed, automatic or

semi-automatic filling and packaging equipment, our containers are molded from FDA approved resins to close tolerances. Hi-Plas products ensure continuous and consistent performance, shipment to shipment.

For more information call Highland Plastics at
